

SEINE NET ROPE

The extreme hard twist of the ropes increases the abrasion resistance and combined with lead inside to increase the density makes it a good choice for Danish seining.

▶ SEINE NET ROPE

3 strand twisted.

▶ DRAGNÓTATÓG

3 þátta fléttað.

▶ SNURREVODSTOV

3 kvadrat flettet.

▶ CUERDA PARA RED DE CERCO

3 cabos trenzado.

▶ КАНАТ КОШЕЛЬКОВОГО НЕВОДА

3-х прядный.

Properties	
Material	Polysteel
Construction	3 strand hard twisted
Elongation	18%
Colour	Blue or white
Marker	Red
Density	1,35
Melting point	145°C
Water uptake	0%
UV resistance	Very good
Abrasion resistance	Excellent
